Introduction

Introduction

This Template provides a structured approach for proposing the costs associated with delivering this RFP's requirements. Each Respondent must fill out all applicable worksheets and cells as described by the Template and individual worksheet instructions. This is the formal Cost Proposal Template for the Respondent's Proposal. The Respondent warrants that all costs associated with the services as requested in this RFP are included in this Template. Failure to adequately represent all costs as requested in this RFP may be grounds for Proposal disqualification at the sole discretion of the State.

The State of Arkansas is anticipating to award a "Base" Contract for one (1) year that may be renewed on a year-to-year basis, for up to six (6) "one year" terms. The total contract term shall not to exceed a total of seven (7) years.

Where costs are requested on an annual basis, the year refers to the appropriate year of the Contract (*i.e.* Year 1 refers to the first year of the Contract rather than calendar or Federal fiscal year). Respondent must complete the Cost Proposal with the expected cost rate based on the anticipated Contract start date as stated in the RFP. However, should the Contract start date shift for any reason, the State expects Contractor to honor the costs as stated in their Cost Proposal. The State understands that this Contract may begin in the middle of a fiscal or calendar year. The awarded Contract will be aligned to appropriate calendar and/or fiscal years during Contract negotiations. The total bid cost is a **firm fixed price** Proposal and the determination of the Contract start date will not affect the total bid price.

This workbook contains cost information required for submission of a Proposal for the Services in this RFP. The worksheets within this Response Template are listed below. All worksheets must be completed. Any Proposals that do not provide complete cost information may be excluded from the competitive field.

- Cells requiring Respondent data entry are shaded in yellow to clearly indicate which cells are available for data entry.
- Cells not shaded in yellow are locked and cannot be altered. These cells will populate automatically.
- **Do NOT add, edit or adjust cells unless specifically requested to do so.**
- It is the Respondent's responsibility to validate the integrity of the Cost Workbook formulas and links where applicable.

Key Assumptions: Respondent must abide by the deadlines detailed in the RFP.
